Lexington, North Carolina

Pro Bono Publico

PREFACE

We take pleasure in submitting Vol. II of the Lexington, N. C., Directory. While no directory is free from errors, we feel sure the Lexington Directory will rank above the average city directory and will give general satisfaction. Experienced help only has been used in collecting the data for this directory, and if there are any omissions of names it is not due to the fact that the ground was not fully covered by our canvassers, for a house-to-house canvass was made. It often occurs that a person, in giving the information for the directory, overlooks or forgets to give names of persons that should be listed, and in such cases it is not the fault of the publisher that some names are left out. As a rule these omissions are few. Of course, the printers have to make a few typographical errors—they would not be printers if they did not—but as a whole we know that the Lexington Directory can be relied upon, and will be found by all who use it to be a very valuable book of information, and one which no up-to-date business man can afford to be without.

We desire to thank our patrons for their liberal support, by which this publication was made possible. We also desire to extend our thanks to our many friends and the public in general for the courteous way in which they supplied us with the proper data. It is a pleasure for us to publish a directory in a city where the people are interested and where they are willing to co-operate with us and lend their aid in the making up of a work of this character, as was the case in Lexington. This of itself is good evidence that Lexington is a good, live, up-to-date city, and a good place in which to live.

We shall continue this publication, and promise you **efficient service**

Population, 9,123

The Science of Chiropractic can truly be named the "Master Key" that unlocks the door to Health. Pure Chiropractic is no longer an untried theory. It has been tried and weighed in the balances and found to be full weight, i. e., one hundred percent.

If you are anxious to enjoy health and wish to know what "Chiropractic" will do for you, try it.

LEXINGTON, N. C. [1925-1926] CITY DIRECTORY

ADVERTISING

is what nothing was ever sold without. If a loaf of bread is sold to a tramp who managed to glom onto a jitney, it had been advertised by the tramp's hunger and by somebody who told the boy where the bakery was. Or by the window of the bakery itself. There's isn't a human being who doesn't believe in advertising. If he really doesn't, he had better commit suicide. And that will give him a lot of publicity that nobody can cash in on.

The man who claims not to believe in advertising is a—well, you know what Ananias was. This boob is too anxious for everybody to tell other people that his place is a good one to trade. But ain't willing to give the advertiser anything for telling the other folks. He is, to use a modern term, a something-for-nothing tightwad. The man who puts on good clothes advertises his own respectability, and expects results in the shape of the respect of others. The man who dresses poorly because of necessity or purposely, advertises his poverty and expects results in other people's help or contempt. The doctor claims it is unethical to advertise, but he wants the newspapers to mention every time he has a case. The same is true of a lawyer. In fact, every honest person wants the right kind of advertising. Only dishonest persons are afraid of it, and they get it anyway.

**TO GET GOOD ADVERTISING—TALK IT OVER WITH
THE DIRECTORY MAN THE NEXT TIME HE IS
IN YOUR TOWN**
